CYPRESS CHAPTER POINTS WORKSHEET

STATION WORKED	OLD POINTS	NEW POINTS	CLAIMED POINTS	NEW POINTS	CLAIMED POINTS	NEW POINTS	CLAIMED POINTS	NEW POINTS	CLAIMED POINTS	NEW POINTS	CLAIMED POINTS	NEW POINTS	CLAIMED POINTS

Instructions: You claim a station's full point value the first time you work them, afterwards you claim only the points they have acquired since you last worked.
For example:
AF4QT works KD4WOV on Monday, KD4WOV is worth 300 points which allows AF4QT to claim 300 points. A week later they work again and KD4WOV is now worth 400 points, AF4QT can claim only the additonal 100 points that KD4WOV has accumulated. In this case the "old points" would be 300 and the "new points" would be 400. To compute the points you simply subtract the "old" from the "new", in this case it would be 400 - 300.
The result you get is what you claim on the web form, in this case 100 points.
